- Time Management & Organization
- Task Tracking & Reporting
- Attention to Detail & Accuracy

CURRENT EXPERIENCE

Meta Ads Specialist / Creatives Specialist – US Clients
September 2025 – Present (Digital Marketing / Remote)

Northstar Preschool – Roy, Utah & Pleasant View, UT

- Managed Meta (Facebook & Instagram) paid campaigns for two preschool locations, driving enrollment inquiries through targeted audience segmentation, A/B testing, and continuous performance optimization.
- Designed and produced ad creatives and video content including promotional videos, static graphics, and carousel ads aligned with the school's brand identity and enrollment goals.
- Built SEO-optimized websites using Local Falcon, conducting geo-grid rank tracking and local SEO strategies to improve Google Maps visibility and attract nearby families.
- Developed an automated performance dashboard using Google Apps Script, Python, and the Meta Ads API to pull live campaign data (impressions, clicks, spend, leads, ROAS) into Google Sheets — eliminating manual reporting entirely.
- Analyzed campaign data and performance trends regularly to optimize ad spend, improve cost-per-lead, and scale what was working across both locations.

Online.jobs – Remote Staffing Platform

- Managed and optimized Meta paid ad campaigns targeting job seekers and employers, building strategic audiences and structuring campaigns around conversion funnels to drive sign-ups and platform growth.
- Created ad creatives and short-form video content tailored to different audience segments, producing engaging visuals designed to maximize clicks and conversions.
- Monitored campaign performance metrics and adjusted targeting, budgets, and creative direction based on data to maintain cost-efficient delivery and improving results.

ABOUT ME

Organized and highly adaptable operations assistant with over 5 years of experience supporting business operations, customer service, and internal coordination in fast-paced environments. I'm known as the go-to person for getting things done—whether it's handling client calls, organizing workflows, solving technical issues, or stepping in to keep operations running smoothly.

Beyond my core role, I have a strong passion for **building, automating, and creating**. I've developed systems using Python and Google Sheets to improve efficiency, and in my free time, I explore creating websites, designing profiles, editing videos, and working on creative digital projects. Anything that involves automation or bringing ideas to life, I enjoy learning and experimenting with.

Reliable, proactive, and detail-oriented, I take initiative in both independent and team settings—whether assisting in recruitment, managing office operations, or leading when needed. I enjoy finding smarter, more efficient ways to work while keeping things organized, functional, and visually clear.

PAST EXPERIENCE

Saud Abdulaziz Al-Rashed Group of Companies – Kuwait
April 2020 – August 2025 (Real estate / Investments)

- Acted as the **frontline representative and receptionist**, handling client interactions, greeting guests, and managing meeting coordination.
- Managed **high-volume inbound and outbound calls**, including customer support, appointment scheduling, and company inquiries (BPO-style operations).
- Served as a **personal assistant across departments**, becoming the go-to person for urgent tasks, coordination, and problem-solving.
- Assisted HR in **recruiting professionals**, including sourcing candidates, initial screening, and coordination of interviews.
- Handled **procurement and purchasing**, sourcing suppliers, comparing options, and ensuring cost-effective decisions.
- Prepared and processed **company cheques and financial documents** with high accuracy and confidentiality.
- Provided **technical support** for staff, including PC troubleshooting, hardware selection, and system setup (including printer set up).
- Designed and implemented **automation systems (Python & Google Sheets)** to streamline workflows and improve efficiency.
- Managed **office operations independently** during management absence, ensuring continuity of work and team productivity.
- Acted as a **team leader when needed**, guiding staff, organizing workloads, and training team members on systems and automation tools.
- Coordinated internal operations and acted as a **bridge between departments, clients, and management**.
- Created and edited **graphics, videos, and visual materials** for internal and external use.
- Maintained strong **organizational and financial tracking systems**, ensuring accuracy in reporting and daily operations.
